DX news

5N7DTG Nigeria –update February 12

'There will be a lot of FT8 traffic during this activity as FT8 is our priority. We will use SUPER FOX latest version on 20, 17, 15, 12, 10 together with MSHV on the same bands, same time to increase the number of QSOs, and give a chance to small pistols and stations with wire between the trees. Dont be confused if you see us on e.g. 20m 14.074 and 14.090 or 21074 and 21091 at the same time. Super Fox will be used until we see low trafic, then MSHV will take over. 30, 40, 60, 80, 160 will be done on MSHV. 6m on MSHV only. CW and SSB not very important for us but there will be some activity as well.'

DX India Foundation

In celebration of World DX Day, DX India Foundation is proud to announce its commitment to promoting DXing activities from India. Following the resounding success of previous IOTA activations, such as [Sacrifice Rock](#), [Kanika Island](#), [Sagar Island](#), and [Nachugunta](#) IOTA, the foundation is gearing up for more exciting adventures.

DX India Foundation's primary objective is to activate rare IOTAs, organize DXpeditions, and foster a vibrant DXing culture in the region. To achieve this goal, the foundation is seeking support from manufacturers, individuals, and organizations to acquire essential equipment.

V73WW Marshall Islands –update February 12

After many hours of travel, the team touched down in Majuro at 23:00 UTC on February 10th — local time 11:00 AM, February 11th. We saw Johnston atoll from the plane as well. (It's easy to remember the UTC time here, as we are exactly on the opposite side of the globe from Greenwich, in UTC+12.)

We were picked up by our host, who rented an extra pickup truck for us. After a supply run, we took a boat to our small island within the Majuro Atoll, hauling all our equipment ashore and unpacking.

We became QRV about two hours ahead of our originally announced 00:00 UTC start time and had already logged 500 contacts on two bands by then. Since that moment, Europe has been coming in strong during the evening hours. Naturally, Japan and the USA are loud on the higher bands during the day. We've also received multiple audible reports from home supporters.

Our international team, consisting of more than 10 experienced operators, is eager to embark on this adventure.....'

This time, we are focusing on VU4 from the Andaman and Nicobar Islands, currently ranked 54th most wanted DXCC country. During this DX expedition, we will be active on all bands, using CW, SSB and digital.

This provides a fantastic opportunity for radio amateurs around the world to work this DXCC and IOTA.

There will be more updates on our [website](#) – stay tuned for the latest news and details.'

YJ, VANUATU Bob, ZL1RS (last year as E51EME) will be active from Efate, Vanuatu as YJ0RS in June '25. More details to follow, however focus on 6m and possibly 10m (if 6 is "dead"). QSL via LoTW and paper QSL cards will also be available via ZL1RS.

ZC4, CYPRUS SBA Adrian, G0KOM will once again be active as ZC4MK during March 24-31. An entry in the CQ WPX SSB contest is included.

ZD9, TRISTAN DA CUNHA DX-World has learned that a Tristan da Cunha DXpedition is in the works for 2025. Whilst it is quite some time away, we have gleaned the following info.

It will be a 3-4 month long DXpedition to ZD9 which could be extended by another 2-3 months bringing it to (potentially) 6+ months. The additional months could depend on PayPal donations / extra donors. Focus is going to be on CW & SSB. There will be VERY LIMITED usage of FT8. Infact, FT8 will ONLY be used on 80 & 160 meters. Bands of operation will be 10 meters to 160 meters. 1kW to monoband heavy duty vertical antennas due to Tristan da Cunha's very inhospitable weather.

ZK3, TOKELAU A QSP from the Rebel DX Group ZK3ZK: on target for around mid-June. 'We will be doing some delivery on one of our vessels for Tokelau. For now Tokelau borders remain closed due to several local issues. More info soon.'
