DX news

VU4AX Andaman Islands –now QRT

A quick check of the **log** shows over 65K QSOs made with a good mixture of CW, SSB & Digi.
Cases ready to go...

TO1P Saint Barthelemy –update by SP9FIH

I am not a big devotee of FT8, however I will operate this computer mode due to big demand from radio community. During FJ/SP9FIH operation (first 4 days) I will use Fox/hound and MSHV. From beginning of TO1P operation I will try to use Superfox mode. All interested in QSO should read how to operate Superfox. Often I will try to use SSB, the only mode that is not computerized and my favourite one, despite nowadays I do not hear as well as I did few years ago... I do have LoTW certificate for TO1P and FJ/SP9FIH.

6Y7EI Jamaica –update

Approaching 50K QSOS, 6Y7EI continues to be very active on all bands. Here's one of the operator's – Jeremy EI5GM – with a familiar flag! For more info and updates visit their official Facebook [page](#).

V6WG Kosrae Island OC-059 –update March 19 0800z

Rikk reports that it's overcast, rainy and windy on Kosrae. However, he's up and running as a SO2R expedition with over 3K QSOs in log so far.

3Y0K Bouvet Island –update

In February 2026 or in less than a year an international team of 24 amateur radio operators will land on Bouvet Island. Bouvet is a Norwegian overseas territory and lies in the South Atlantic Ocean, with 93% of its surface covered by ice and snow. It sets the record as the Most Remote Uninhabited Island on Earth, and ranks #10 on the Most Wanted DXCC listing at ClubLog.

Operating as 3Y0K, our team will attempt to give as many ATNOs as possible and be active in all amateur radio bands from 10 to 160m. We will direct our attention to human modes but will be active in CW, SSB, FT8, RTTY and QO-100 satellite using up to 12 stations.

The logistics behind this project is complex and requires a budget of \$1.65M. Most of the money is used to pay for the services offered by the icebreaker and its crew, the helicopter with its two pilots and one mechanic, as well as the fuel. Each team member is contributing a significant amount to the budget, and they will also incur additional costs for commercial airfare, two side trips to Norway required by various tasks, winter sleeping bags and clothing, etc.
